

CREAGH
INNOVATION IN CONCRETE

Company Profile

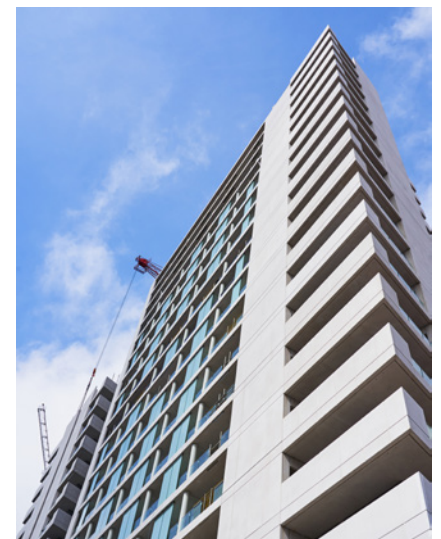

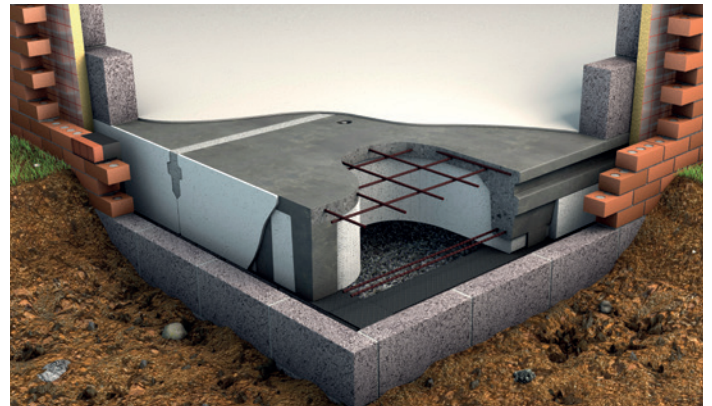

SPECIALISTS IN BESPOKE CONCRETE SOLUTIONS

Creagh Concrete has been a pioneer of precast for over 40 years. We are one of the UK's largest producers of concrete products for a diverse range of market sectors. Creagh is leading the market with innovation in concrete, providing new solutions across the construction industry.

QUALITY PRODUCTS

We are changing the way people think about concrete, bringing new levels of efficiency and performance to our products, with Spantherm thermally efficient flooring and Rapidres, an offsite fastrack build system.

Creagh also manufacture:

Precast & Prestressed Flooring Systems | Bespoke Precast Solutions | Precast Stairs & Lift Cores | Agricultural Products | Premix Concrete, Blocks & Aggregate | Bradstone Masonry & Garden Products

CONCRETE RELATIONSHIPS

Creagh is all about relationships – Strong relationships with our customers, sub-contractors, clients and suppliers.

These relationships are key to our business and our approach to working together to deliver successful projects. From initial design consultation, through project development, installation and beyond, your scheme couldn't be in more experienced hands.

We provide a comprehensive technical support service providing efficient detailed advice and on-site support. When your requirements are more challenging than normal specifications, our team will deliver a bespoke solution to meet your needs on a project-by-project basis.

Being a leader in the industry happens when you harness the drive and commitment of a talented team of people.

PEOPLE

We pride ourselves on the knowledge, skills and expertise of our employees who work together as a team delivering successful projects. Valuing the importance of relationships, we have a collaborative approach that is flexible and can respond quickly to the needs of our customers.

Our experienced and professional team include project managers, engineers, supervisors, health, safety and environment officers, surveyors and mechanical tradespeople, backed by a dedicated management and administration team.

With a variety of project locations throughout UK and Ireland, our employees have the flexibility to travel and develop their skills and knowledge on the variety of projects we undertake. Our experienced team members mentor our new employees to develop and guide them ensuring that our customers needs are met, while delivering projects that meet our accredited Quality, Safety and Environmental Standards.

Being a leader in the industry happens when you harness the drive and commitment of a talented team of people. We always encourage further

training and development of our employees wishing to increase their skills, knowledge and expertise allowing progression through the company. We offer our employees the chance to learn from some of the strongest and most experienced teams and professionals in the industry, and to apply their skills and shine in their chosen field.

We offer our apprentices the opportunity to take on the challenge of our industry with the support and knowledge of our long term employees to teach and guide them.

MANUFACTURING

Our manufacturing facilities are based in Northern Ireland, Scotland and England ensuring we produce our quality products close to our customers. Every concrete piece is designed with our unrivalled engineering expertise and coupled with our innovative production methods to deliver concrete solutions with outstanding quality and reliability.

Every facility manufacturing our products operates to the same best-in-class quality standards with common processes and management. All have ISO 9001 and ISO 14001 certification of our manufacturing and environmental standards. This means that our products and services are safe, reliable and offer world-class quality.

012

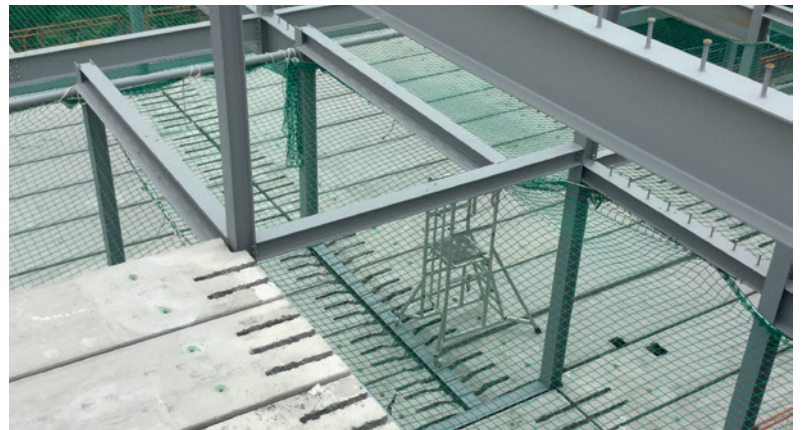

OUR COMMITMENT TO SAFETY

We take safety very seriously and are constantly striving to improve the environment in which we operate. Safety at Creagh is driven through compliance derived from policy and procedures.

Safety is our first priority at every stage throughout our projects from the design and manufacturing stages through to successful project completion.
