The Creagh Self Build team offer advice to help simplify the structural stages of the self build process:

ESTIMATING AND BUDGETING SERVICE

Our team offer expert advice at the design stage to quickly identify potential cost savings for your project.

BUILDING MATERIALS OVERVIEW

From **readymix concrete**, structural **insulated flooring** and **walling** to **stairs**, **sills**, **lintels**, **blocks** and **concrete** - Creagh off-site manufactured products offer consistent quality.

ENGINEERING EXPERTISE

Our experienced team can help with engineered structural solutions and if required provide a quantified design and estimate package.

OFF-SITE MANUFACTURE

Creagh's capacity ensures all self-build schedules are met and consistent quality controls are adhered to.

OFF-SITE CONSTRUCTION

Creagh have on-site teams who are experienced specialists in fast track construction to deliver each project on time and within budget in a Health & Safety compliant manner to your self build schedule.

DID YOU KNOW?

Creagh are the largest manufacturers of hollowcore flooring in the UK.
